VIRTUAL CARE, REAL CONNECTION: BEST PRACTICES FOR YOUTH TELEHEALTH

Webinar

Kids Mental Health Washington is partnering with Charlie Health to offer a free webinar focused on practical, real-world strategies for high-quality telehealth services for youth.

As virtual behavioral health care continues to expand, many are asking: How do we truly engage youth online? How do we assess safety remotely? And how do we ensure telehealth remains effective, inclusive, and supportive—for both youth and providers?

In this webinar, participants will learn:

- Best practices for engaging youth in telehealth settings
- Strategies for building rapport and connection virtually
- Practical tools for remote safety assessment
- Considerations for supporting diverse youth populations
- How and when to elevate care and connect youth to appropriate referral pathways

Who Should Attend:
Community leaders, youth-serving professionals, educators, mental health providers, school-professionals, and anyone committed to building stronger systems of support for young people.
